What Class Should I Choose For My Child?

Choosing a dance style or level for your child can be a tricky task! To help, we've provided what we have found to be the most effective steps to getting it right:

1. Each class will have an indication of suitable age levels, this is the best first step (see table below).
2. What styles is your child most interested in/most likely to enjoy? Sometimes a child may be put off a particular style because of pre-conceived ideas as to how it will be, or maybe they had an earlier negative experience. If unsure, we always encourage both children and parents to approach styles with an open mind, and are happy to provide a free trial class if more convincing is needed!
3. Does your child have previous dance experience? This will help to choose between Beginner, Inter and Advanced levels, however we always aim to ensure each child is placed in a class where they not only feel comfortable, but are also continually challenged in their learning.
4. It's critical for us that your child feels safe, confident and secure in all of the classes that we offer. For this reason, whether it be during enrolments, mid-term queries, or end of year reviews, please don't hesitate to ask if you feel you would like more information or have any concerns about your child's classes.
